PROFILE

I am **DIALLO Abdoul-Moumouni**, a last year engineering student in Cybersecurity and Embedded Systems at the National School of Applied Sciences of Tetouan in Morocco. Throughout my studies, I have received solid training in systems security, embedded programming, networking, and software development.

SKILLS

Languages: C, C++, Python, Java, SQL, VHDL, Verilog

Technologies: FPGA, AVR, ESP32, UART/I2C/MQTT, TCP/IP, Linux, ADAS, Azure/GCP/OCI Cloud, Suricata, Wazuh, IRIS, n8n, Shuffle

Software: Proteus, Matlab/Simulink, Atmel Studio, CCS, VS Code, Modelsim, Quartus, Notion, Figma, draw.io

EXPERIENCE

06/2026 – 09/2026 **Cybersecurity Analyst Intern** **NearSecure**
As part of the SOC team, I am working on the development of a solution for SOC workflow automation with n8n and cybersecurity solutions (Wazuh, IRIS) on a multi-cloud infrastructure.

PROJECTS

Ethical Hacking	Red Team/Blue Team on industrial infrastructure Full simulation of a cyberattack on a virtual industrial infrastructure (6 VMs on Oracle Cloud). The Red Team performed a complete killchain: from reconnaissance to silent manipulation of a simulated Modbus TCP PLC. The Blue Team deployed a full open-source SOC (Wazuh, ELK Stack, TheHive, Shuffle) to detect and respond in real time.
Dev + Database	Centralized Patient Management Application Java application with JavaFX interface, Oracle database, secure authentication system, and medical report generation.
Cloud and Edge	Latency comparison study Deployment of microservices on a Raspberry Pi for real-time sensor data processing, alongside a mirrored server on Microsoft Azure Cloud, to benchmark and compare end-to-end processing latency between Edge and Cloud computing paradigms.
ADAS & AI	Intelligent Road Sign Detection System Road sign detection system based on a YOLOv8 model, integrated into a Python (Tkinter) interface, with dynamic speed display on a graphical dashboard.

EDUCATION

2024 – 2027	Engineering Degree in Cybersecurity and Embedded Systems	National School of Applied Sciences of Tetouan In progress..
2022 – 2024	Integrated Preparatory Classes	National School of Applied Sciences of Tetouan
2019 – 2022	Baccalaureate in Mathematics and Physical Sciences With honors	National Scientific High School of Bobo-Dioulasso (BFA)

CERTIFICATIONS

04/2026	Microsoft Cybersecurity Analyst Professional Certificate	Microsoft
04/2026	IBM Cybersecurity Analyst Professional Certificate	IBM
05/2026	Microsoft Certified: Security, Compliance, and Identity Fundamentals (SC-900)	Microsoft
08/2025	Certified in Cybersecurity (CC)	ISC2
07/2025	English for IT 2	Cisco Networking Academy

LANGUAGES

French - Fluent, **English** - Good level, **Arabic** - Basic knowledge
